WALL STREET'S BOY

WIZARD ENJOINED

TRANSACTIONS IN FLORIDA LAND ORDERED STOPPED AS FRAUD

NEW YORK, Feb. 21.—Charles Greenhaus, known as the "boy wiz-ard of Wall street," has been enjoined temporarily today with sev-

actions in what Atty.-Gen. Ottin-

ger described as a Florida land fraud.

The injunction signed by Supreme Court Justice Faber was served on Greenhaus pesterday. Others named in the order were Harry R. Griffin and Leon Bookbinder, officers with Greenhaus in the Griffin Development and Construction Corporation, Inc., and five employees. The order is returnable Thursday.

It is charged that they offered holders of stocks paying little or no dividends an opportunity to profit by investment in land in Florida and Staten Island. The stock was accepted as a one-third payment on the land, the remainder to be paid in cash. Buyers were assured that the land would be resold for them at a profit.

According to the Attorney-General's complaint, the stock and cash given for the land were "so far in excess of the real value of the said property that there was little or no possibility of such property being resold at any profit."

Greenhaus and three others were indicted December 10 in an asserted stock fraud.

FOUR LADS TO CROSS OCEAN IN SCHOONER

CAMBRIDGE (Mass.) Feb. 21. Lothrop Ames, 17-years of age, a Harvard freshman, will attempt to cross the Atlantic Ocean this summer in a fity-foot schooner, and will take part in the 600-mile British ocean race which starts from Ryde, August 14. next. Ames, of 413 Commonwealth avenue, is a member of a family of yachtsmen. He will be accompanied by three other freshmen, Nicholas Biddle and John Reginald Bishop of New York. Pof. Frederick Gardner of St. Paul's School, Concord, N. H. will accompany the boys as navigator.

Monolulu to be available for army. Navy and civilian flying machines.

Backed by the Territorial government and private enterprise, the airport has been definitely assured through action of the Honolulu Chamber of Commerce in raising \$20,000 by subscription among interested citizens. The committee which raised the \$20,000 is headed by Walter F. Dillingham.

The airport is the outgrowth of more than two years of work by members of the Honolulu chapter of the National Aeronautic Association. A. W. Van Valkenburg, an enthusiast in backing aviation as a national defense factor, is chairman of the airways and landing fields committee of the chapter and devoted much time to arousing public interest in getting airports on all the main islands of the Hawaiian group.

When the 1925 Territorial Legislature opened, interest was keen and the Legislature promptly took action to establish air fields. Public land was available, so the Honolulu chapter went out to get private grounds.

The Legislature appropriated to such fields on some islands. On Oahu, site of Honolulu, no public land was available, so the Honolulu chapter went out to get private grounds.

The Legislature appropriated to state can be completed.

The local chamber developed its plans through 1925 and has just announced that the \$20,000 is pledged and the airport will become a reality as soon as the nocessary land deal with a large estate can be completed.

The field is to be located about three and a half-miles west of the business section of Honolulu with both sea and land facilities, so that hydroplanes and airplances that hydroplanes and airplance is flying level.

An earth induc

CHAPLAIN ACCUSED

Lawrence (Kan.) Girl Says She

Will Appear Against Him

(BT A F. Niohr Wine!

SAN FRANCISCO, Feb. 21.—

Announcement by Miss Lucille

Swallow of Lawrence, Kan., that she had been subpoened as a witness in the court-martial trial of Chaplain Orville E. Clampitt.

U.S.A., was the first public disclosure of his facing the mtilitary court.

Although the case has been pending for some months, not all the angles have been investigated, army officials here said. It was learned, however, that the case in volves two Kansas girls.

Chaplain Clampitt formerly was stationed at Fort Leavenworth, later transferred to Vancouver. Wash, and is now stationed at the Presidio of San Francisco.

When questioned today, the chaplain declined to make any statemant.

NAVIGATION SHORT CUT
When Capt. Wilkins files nothward over the uncharted polar
wastes, he will seek to trace his
course and ascertain his everchanging positions by a new short
method of navigation that is closely akin to the United States Navy's
standard method of warship navi-

standard method of warship navigation.

The new method was developed for Capt, Wilkins by Osborn Miller, head of the school of surveying of the American Geographical Society. It calls for the use of four types of navigational instruments; compasses to indicate courses, octants to measure the altitude of the sun, airplane speed and drift indicators to gauge distances and correct directions flown and chronometers to measure time.

The Miller method is not accurate in the degree that navigational methods may be accurate. It deliberately sacrifices accuracy for speed of calculation. It gives ground to the fact that the Detroit expedition navigators must work rapidly and in bitter cold. But, Mr. Miller believes, it will always tell Capt. Wilkins his true position within thirty miles.

Like the Navy method, the Miller method invokes a combination of "dead reckoning" and nautical astronomy.

of "dead reckoning" and nautical astronomy.

Dead reckoning demands a known point of departure, true courses followed, and distances traveled on each course. With these factors a ship captain or airplane navigator can determine his aproximate position at any given time. But because dead reckoning is heir to so many errors, nautical astronomy must be used as a check.

Bullock's No-Rip Union Suits Show Important Improvements

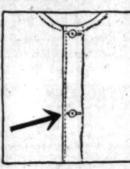

The New Model

on Sale Today

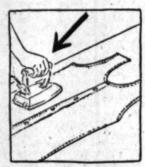

6 for \$5

ture of an additional piece of knitted fabric on the cen ter of the knit strip in back
—it is not stitched at sides giving it latitude to stretch vertically and take the strain-notice the three rows of stitching. A feature exclusive to No-Rip. 6 for \$5.00.

litustrating the No-Rip horizontal button holesuperior to the vertical button hole because it prevents buttons flying open under strain. 95c, 6 for \$5.00.

All Bullock's No-Rip Union Suits are ironed by handimparting a clean pleasing finish to the new garmentready to wear immediately —95c, 6 for \$5.00.

Note-In Spite of the Splendid Improvements the Price is still at the same low Level-

95c, 6 for \$5

In addition to the features of advanced manufacture and service illustrated, it should be emphasized that-

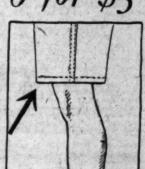

Bullock's No-Rip Union Suits for Men are made from 88x88 square Nainsook. (A superior cloth that has stood strenuous tests-Bullock's is confident that it will serve you well.)

All seams are taped to withstand hard wear and many launderings.

Seams are reinforced at every point of strain with stays of blue buttonhole stitching. (Indicated in the illustration with solid black lines)-

Re-emphasis should be placed on the addition of the extra knitted piece in the back. This allows vertical stretching and prevents ripping-

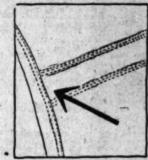

6 for \$5

Bullock's No-Rip Union Suits have an extra full pleat in back in order to eliminate pulling when in standing position—allowing the front of the leg to hang free—no binding across the front at bottom of leg-an the well built man. 95c, 6

Notice that the No-Rip neckline is neither round nor V shaped—it is U shaped and is surprisingly comfortable. 95c, 6 for

Tne elastic knit strip in back of No-Rip is narrower than the front of the suitshaping the waist to fit—no uncomfortable folding at waist. 95c, 6 for \$5.00.

And so on, down to little details such as Buttons (six instead of five), triple rows of stitching, full cut (the No-Rip rule is 10% over standard requirements), tailoring to fit—all of which means much more satisfactory service and comfort-

The danger is that you will underestimate the real character of these Bullock No-Rip Union Suits because the price is so low-95c, 6 suits for \$5.00. Sizes 34 to 50.

OMAHA (Neb.) Feb. 21.—Omaha feels much better today about the maniac sniper who has been going around town for the past two weeks taking pot shots at citizens who happened to come into his view. Police believe the sniper has got asfely away from Omaha, and that he will be next heard from in some other city where he will attempt to emulate his Qmaha record of two dead, two wounded and 200,000 badly scared.

Last night passed without the sniper making a single move. Hundreds of police officers in both Omaha and Council Bluffs patrolled the districts in which the sniper making a single move. Hundreds of police officers in both Omaha and Council Bluffs patrolled the districts in which the sniper has operated and a dozen motorcycle patrols were held at the central station and at outlying pill-box stations ready for emergency calls. Up to a late hour these emergency patrols were kept on the move by calls of exolications that suspicious characters or sounds had been seen or heard, Investigation proved all these to be groundless. by sounds had been seen or heard, investigation proved all these to be groundless.

Today these patrols were held in reserve but the entire day assed without a single call at the station.

This is taken as an indication hat the people's mind is returning to normal. Advance sales for onight's theatrical performances are about normal and afternoon ttendance at the moving-picture hows and vaudeville houses was a usual.

Soldier Bettle of Trenton

WASHINGTON

WITH FAITH IN DIVINE GUIDANCE "BROUGHT FORTH A NEW NATION"

Statesman Constitutional Constitutional

Washington—like Moses—led his people out from oppression, through the desert of chaos, into a glorious freedom.

He held his divine commission because he was the one man who could hold the people together and win the Revolution---

Who could continue to hold them together and lay the foundation of a new nation---

Who could carry the new government through its first eight years and establish it in the eyes of the world---making it a practical, working actuality---commanding the respect of Europe.

He was chosen, not because of supreme brilliance in any one part, but because the weak and chaotic condition of colonial affairs required to be met by great wisdom, strength and ability in every part-

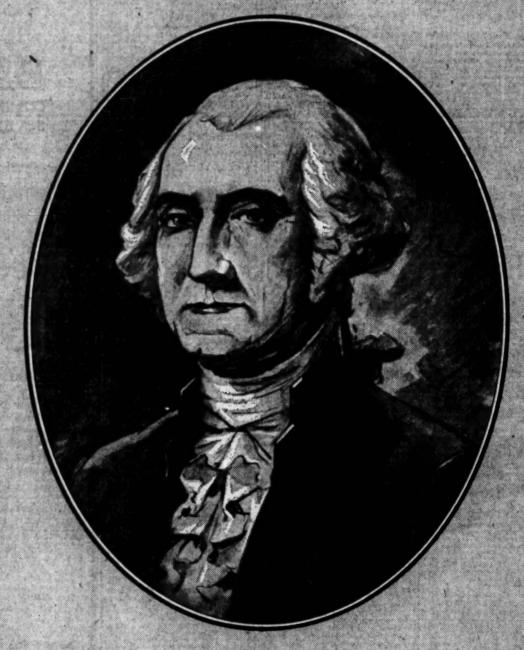

And this is the measure---the story---and the glory---of Washington,

Washington was a builder. While he daily planned and carried out the work on his farm lands he also thought out and planned the future of the country.

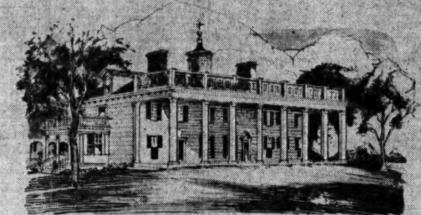

He assiduously sought and labored for the success of those plans, but he did not seek and did not want office.

Neither as commander of the army nor as president of the Nation would he accept pay, but gave a fortune, as well as his services, to sustain the war of independence.

He was a good farmer, an ideal citizen, a good soldier, one of the world's greatest generals, and perhaps the world's most capable and dignified yet modest ruler.

SWashington

Citizen-Home, Mount Vernon, Virgina

"Washington is the mightiest name of earth---long since mightiest, in the cause of civil liberty ... To add brightness to the sun or glory to the name of Washington is alike impossible. Let none attempt it. In solemn awe pronounce the name, and in its naked, deathless splendor leave it shining on."--- Lincoln

His genius was the genn

His power was the pocharacter, of judgment of to see far ahead, of practical structive thinking, of couninitiative action.

His wisdom was his faith right outcome through the su ance of "the All-Wise Door of events" who had "hithe watched over his steps."

His great attraction, from to last, was his home at Mon Vernon and the outdoor life of farmer and landowner. He willingly left them except as put aside his own desires to me the larger need of his country.

For 49 years -- between ages of 17 and 66 -- with a short intervals between -- he he important responsible commissions from his State and National State and National

"Y los muy ignorantones son los primeros que se dejan engañar por ese oropel con que se adornan. En cuanto leen en un compinche una palabreja rara o estúpidamente empleada, le saltan encima y la conservan como ro en paño para engastarla en su primera lucubración. Y así ocurre que ciertos disparates descublertos por tal o cual maestro corren ya por ahi tan fiamantes en las obras de otros escritorzuelos recentaias.

"Al ir reuniendo elementos para el presente libro (Los Nuevos Derroteros del Idioma) he tropezado más de una vez con verdaderas monstruosidades, que ponen de manifiesto la ignorancia increbie de muchos escritores modernos. Parece mentira la manía que tiemanifiesto la ignorancia increbie de muchos escritores modernos. Parece mentira la manía que tiemanifiesto la ignorancia increbie de muchos escritores modernos. Parece mentira la manía que tiema albras que no entienden. Guíanse por anlogías de sonidos, por etimologías fantásticas, para alterar el sentido de las voces, y, como se va estilando ahora entre ciertos fóvenes la conocida teoría educativa de Fray Gerundio, que abandonó los estudios para meterse a predicador, se lanzan muchos escritoreltos a la palestra sin más specificador, se lanzan muchos escritoreltos a la palestra sin más specificador, se lanzan muchos escritoreltos a la palestra sin más specificador, se lanzan muchos escritoreltos a la palestra sin más specificador, se lanzan muchos escritoreltos a la palestra sin más specificador, se lanzan muchos escritoreltos a la palestra sin más specificador, se lanzan muchos escritoreltos a la palestra sin más specificador de la seculación de la palestra sin más specificador de la cual de la palestra sin más specificador de la cual manía que tien de la cual manía que tien de la cual manía q

la obra striba citada para designar la colección de disparates que ha venido reuniendo.

Tomando por guía el estudio del señor de Toro y Gisbert, voy a presentar a mis lectores, a partir de la Plática 410, una serie de trases, tomadas unas de entre las coleccionadas por el citado linguista, y otras de mis propias apuntaciones, para que las examinen los estudiantes de español y señalen los barbarismos que conapuntaciones, para que las examinem los estudiantes de español y señalen los barbarismos que contengan. Después de cada dos Piáticas con frases vendrán dos o más con correcciones y comentarios relativos a las primeras.

Jugo interesante transcribir algunos párrafos del señor de Toro referentes a este asunto:

"La manía de emplear palabras saras sin conocer su significado va creciendo de modo espantoso. La cose no nos ha de sorprender, sin embargo, si pensamos en la manera como se forman la mayor parte de los escritores actuales. A una ismorancia casi absoluta de las lenguas de donde la nuestra se deriva, unen muchos un olimpico desden hacia los clásicos españoles, que entienden generalmente mal a juzgar por el modo como escriben las palabras y frases que se creen obligados a tomarie prestadas para cubrir su ignon-neia del español, y, por fin, una afición desmedida por todo lo brillante, todo lo lamativo.

"Porque ésa es otra: a la ignorancia crasa unen el exhibicionismo rastacueril", la manía de las pala-

The second of the second

Studebaker Sedans

One-Profit prices—Unit-Built construction—Powerful engines—bring big sales increase

STUDEBAKER'S third price reduction since January 1, 1925, made the Standard Six and Big Six Sedans such obvious outstanding values that sales are soaring.

There are sound reasons why Studebaker can give you more for every dollar-better workmanship, finer materials, dependable design, nation-wide service, power, economy, long life and high resale value.

Studebaker's unique, facilities

Few motor car "manufacturers" have foundries, forges, etc., to make their own engines -yet one-fifth of the cost of an automobile is in the engine.

Even fewer build their own bodies-yet one-third the cost of a car is in the body.

Not only does Studebaker make all bodies and all engines used in Studebaker cars, but also all clutches, gear sets, springs, differentials, steering gears, brakes, axles, gray-iron castings and drop forgings. Only Ford in the low-price field and Studebaker in the finecar field enjoy the benefits of such complete manufacturing facilities.

One-Profit value

These facilities enable Studebaker to manufacture quality cars on a One-Profit basis. They enable Studebaker to eliminate the profits of outside parts and body makers. Many major savings are thus effected and passed on to the ultimate buyers of Studebaker cars, in the form of higher quality at a lower price.

Unit-Built construction

Studebaker facilities result, too, in Unit-Built construction-in cars designed, engineered and built as units. The hundreds of parts used in a Studebaker car function together as a unit, resulting in longer life, greater riding comfort and higher resale value. Scores of thousands of miles of excess transportation thus are built into Studebaker cars.

Always kept up-to-date

Because all phases of manufacture are directly under Studebaker control, Studebaker cars are constantly kept up-to-date. We add improvements regardless of the calendarwe do not save them up for spectacular annual announcements which make cars artificially obsolete.

Rock bottom time-payment rates

Leading bankers, recognizing Studebaker stability, have made money available for financing Studebaker cars at low interest. They know Unit-Built cars bought at One-Profit prices and always kept up-to-date are exceptionally fine risks. Therefore, no car in the world is able to offer lower timepayment rates than Studebaker.

Studebaker Standard Six Sedan Under Studebaker's fair and liberal Budget

\$1550

Studebaker's lowest-priced Sedan—but all quality

THE fine Studebaker Standard Six Sedan illustrated below is a real four-door Sedan. It is upholstered in genuine wool cloth. Car-pets are wool. Windows are real plate glass.

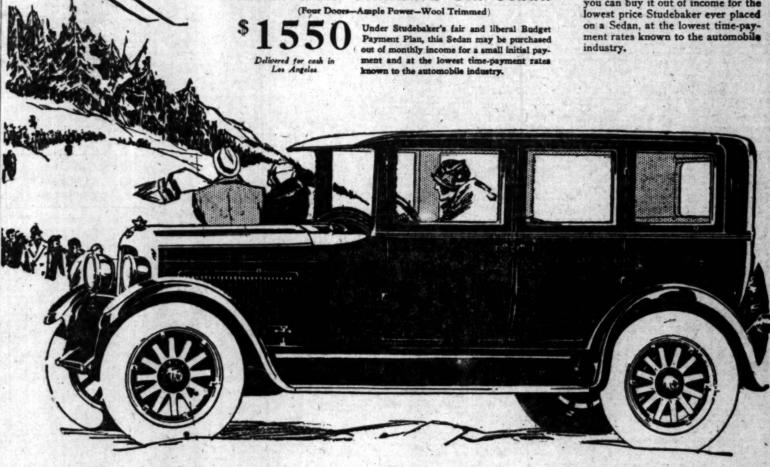

Equipment includes an 8-day clock, gasoline gauge, ash receiver, rear-vision mirror, stop light, air cleaner, oil and gas filters, dome light, safety lighting control on steering wheel, automatic windshield cleaner, coincidental lock to steering gear and ignition, controlled by sar key operating door and spare tire

But the most important superior ities of this Sedan are concealed within the framework of the body and in the chassis.

Body pillars are of northern white ash, cross-members of hard maple. We pay a premium for steels of

Run the engine—the most powerful in any Sedan of its size and weight, according to the rating of the N. A. C. C. and the Society of Automotive Engineers. The motor is not built for excessive speed, but rather for smooth, trouble-free service at 5 to 55 miles an hour. It is built for a long, quiet life-not for spectacular

Come in-test its performance power - comfort; then realize that you can buy it out of income for the on a Sedan, at the lowest time-payment rates known to the auton

HOPPE AND SCHAEFER CLASH TODAY IN 18.1 CUE MATCH

[BY A. P. NIGHT WIRE]

CHICAGO, Feb. 21.—Willie Hoppe, for sixteen years champion of the balk-life billiard game and present title-holder in the 18.1 division, tomorrow begins a three-day 1500-point 18.1 match here with Jake Schaefer, 18.2 champion.

They will play blocks of 250 each afternoon and evening finishing up the blocks with 25 points of three cushions. The match is in preparation for Hoppe's forthcoming contest with Edonard Horemans, European champion, when he will defend the 18.1 title he has held for twenty years. The 18.1 title is not at stake in the match with Schaefer.

terday afternoon. The Clubmen are still four points ahead of their nearest competitor and, unless they can be stopped soon will annex another cup.
The Sons had been favored to take the measure of the Mercuries and their failure to do so was a sad blow to other clubs in the loop with cham-pionship aspirations and whose chances would have been im-

Three Games Are Scheduled for Saturday

Grizzlies Firmly Intrenched in First Place

Locals Grab Title for Second Straight Year

Saturday night's results: Local U. C., 18; Whittier 14. Pomona, 33; Occidental, 31. Caltech, 23; Redlands 14. This week's games:

series staged by the local University of California and Whitties Friday and Saturday night. There are three tilts scheduled.

As things now stand the Grizzlies have the championship for the second consecutive season and not even a defeat by Redlands—a thing highly unlikely—can take is away from Caddy Works and his affiletes. The locals gave the Bulldogs a good thumping early in the year, and, although Saturday's clash is to be played at Redlands, it is hard to see how the Grizzlies can lose.

mand to see now t heorisates can lose.

Whittier plays at Caltech. The Engineers have improved tremendously since the start of the season and will probably give the Poets a real battle. However Esek Perry's charges will be heavy favorites to win.

Pomona should trim Oxy at Claremont, the Sagehens having turned the trick Saturday night on the Tigers' home floor.

The Grizziles have hang up a splendid record in their last three years of play. Over three seasons the locals have lost but three conference games. Two of these were to whittier two years ago, the other being to Oxy last season.

Caddy Works loave Bill Gheets.

Caddy Works loses Bill Goertz and Capt. Horace Bresse this June. Ed Prigge. Jack Ketchum and Jimmy Armstrong are Jue to re-turn, which indicates that the Grisziles with have plenty of strength.

the only choice was golf, fishing or hiking the mountain trails, and nobody was observed doing the latter.

Tomorrow the routine of hardening of the muscles will be resumed, but by about Wednesday it will be possible for the Goofs and regulars to put on a bob-tailed battle of five or six immigs and such affairs as that will serve to break the camp monotony. The hurlers, like Bill Piercy and Charley Root, who have been pitching all winter, will come in mighty handy for these impromptu games, because they'll be able to treat the ball players to some curves and high, fast once.

The most successful of today's Allent Moser of the Wilshir Club, one of youngsters in Southern California,

the ball players to some curves and high, fast ones.

The most successful of today's anglers was Root, who went out in a boat accompanied by Heathcote, Cooney and Scott. The quartet pulled up quantities of rock cod from the deep waters, but Root knocked out the eyes of his pais by hooking a yellowtall and landing it. The fish, a member of the mackerel family, weighed eighteen pounds.

The older players on the Chb squad can't help but notice the vast difference in the methods of McCarthy and Bill Killefer, the former Bruin pilot, Killefer mingled and joked with his players both on and off the field. McCarthy is business at all times and on the practice field talks to his men only when issuing an order or explaining a fine point of the play. Killefer depended on friendship to get the best from his players. McCarthy apparently believes respect is the more effective.

WELL PETROLEUM ING DEPTH SHIPMENTS

Los Angeles Marketers Are Holding Out for Increase in Price of Crude Oils

Tanker shipments of bulk petro-eum products from Los Angeles Harbor last week mounted well over the 2,000,000-barrel mark being chiefly crude oil. Shipments to the Atlantic seaboard are notitionably light of late. This is taken as an indication that Los Angeles marketers are not anxious before attempting the well is already. The shipments for the week were as follows:

NEW PLANT FOR MAKING OF GAS OUT Six Marland

Latest Development in Portable Outfits Now on Local Market

poration of this city is now putting on the market the latest development in portable gasoline plants.

This portable plant unlike other portable plants now on the market is a complete plant in itself and needs no additional equipment to manufacture gasoline—connect the absorbers to a gas supply, start the engine, fill the system with absorption oil and light the fire under the still and the plant is in operation, producing gasoline. All the operation needs to furnish is water, gas and storage for the gasoline produced.

The most remarkable thing about the plant is its great capacity for its size. The 2,000,000 cublc-foot plant, which has at least a 100 per cent overload capacity, is only eleven feet high, when ready for shipment.

The plant is mounted on a section of the market to have contracted to thave contracted to have componishe f

of Mine Claims

Word has been received from slome, Artf., that C. E. Gilman. in behalf of San Francisco people, H. C. Reedall and Tony Gini, on the Victory group of claims in the Vulture Mining District of Mari-copa county, making a cash pay-ment on the deal.

copa county, making a cash payment en the deal.

The Victory group, it is stated, adjoins the Knoucher group recently acquired by the reorganized Belcher Divide Mining Company, and the Washington mine being operated by the Tonopah Belmont Mining Company. The announce ament has been made that the Victory has already developed three into ore showings, and it is said that Mr. Gilman is planning a campaign of systematic development work.

campaign, of systematic develop-ment work.

Mining activities in the Vulture district are now quite pronounced.

Three transfers of mining proper-ties within its boundary lines have been reported recently, the most recent deal consummated there being the sale of a group of claims, man the Washington and Knouch-er mines, to Ole Elliott of Tono-pah and Goldfield.

TOPANGA OIL FIND EXCITES GOLD MILL EAST DROP High Gravity Seepage in Water Well Starts Boom;

Kay Copper Property

Owner Plans Examination and Test

BY HOWARD C. KEGLEY The discovery of a seepage of high-gravity oil Saturday in a water well being drilled on the Aubrey Austin Ranch two miles north of the Topanga postoffice, in Topanga Canyon, created considerable excitement and sent "lease hounds" scurrying to the canyon to see what they might pick up in the way of leases.

Mr. Austin, a member of the paving contracting firm of Kneen & Austin, in this city. took geologists and went out to the well to make a study of it. He announced last night that a definite statement re

thronged the canyon yester-day, and ambitious real estate dealers are reported to have hastily prepared signs inform-ing the public as to the possi-bility of an oil field being de-veloped there.

The oil seepage was discovered in a water well which had progressed to a depth of 205 feet. The drillers bailed out several feet of fluid, it is asserted, which appeared to be chiefly a light-gravity crude testing between 50 and 60 deg. gravity, or nearly pure gasoline, Mr. Austin, owner of a 120-acre ranch in Topanga Canyon, declared yesterday that he had never thought of drilling for oil there, but that he now intends to go thoroughly into oil possibilities. A preliminary examination of the well yesterday is reported to have revealed the fact that the drill penetrated about two feet of oil-bearing sand. It is not known now whether that is the actual thickness of the formation.

GEOLOGISTS DOUBTFUL LIGHT GRAVITY

GEOLOGISTS DOUBTFUL

GEOLOGISTS DOUBTFUL
While it is not improbable
that some oil will be found in
Topanga Canyon, geological
conclusions are said to be unfavorable to the belief that an
oil field of commercial extent
exists there. Some of the leading geologists of Southern
California who have worked
out that district and the entire Mailbu country are inclined to the opinion that such
oil as may be found there will
be of high gravity, such as
that which was discovered in
the Austin water well, indicating that the fluid probably
migrated there from the
Bardsdale or Conejo shallow
fields some little distance up
the Coast in the neighborhood
of Ventura.

The Topanga test promises

IBT CABLE AND ASSOCIATED PRESSI
TOKIO, Feb. 21.—The governmens, to prevent the growing speculation in the yen, has suddenly
decided to stop the shipment of
gold to America. It is understood
there will be no more shipments
during 1926 because it was misunderstood by speculators abroad,
who believed the removal of the
gold embargo was imminent.
The government, it is undertood feels that the present price Sixty men are employed at the property of the Kay Copper Corporation, fifty miles north of Phoenis, Ariz, and five headings on the 1500-foot level, and one on the 1200-foot level, are being driv. en in the development of the mine, according to Sidney Norman of Los Angeles, local representative of James J. Godfrey of New York, president of the company.

On the 1500-foot level, Mr. Northe 1500

On the 1500-foot level, Mr. Norman states, two cross-cuts are being run, 150 feet apart. These are headed in the diabase dike in order to reach the body of smelting ore followed by a winze from the 1200-foot level, and from which values averaging as high as 9.5 percent copper have been obtained, together with \$2.50 in gold and silver.

OIL FIGHT ENDS Marland Contracts to Drill Six Wells in Disputed Area

(EXCLUSIVE DISPATCH) OKLAHOMA CITY (Okla.) Feb. 21.—The Marland Oil Company is reported to have contracted to FIFTH SHUTOFF FAILS,

GASOLINE TAX SHOWS GAIN

Some idea of the amount of motor fuel used by California, which is one of the greatest gasoline consumers in the United States, may be gathered from the fact that during the last quarter of 1925 the consumption of "gas" in this State increased 11 per cent.

This figure is indicated by State gasoline tax paid by the various marketed more than 5,000,000 gallons last year, reveals some interesting companies. The gallonage during the third quarter of the year was 176,866,048 gallons, while for the last quarter it was 216,059,862 gallons, and the last quarter, it may be added, was almost wholly outside the classification known as vacation period.

Last year the State collected gasoline tax totaling 316,033,194, 000,000 gallons each.

Reasons why California Street Improvement Bonds are the Best Investment—

No. 10 The Street Improvement Bonds issued by California cities are empt from Federal Normal In-come and Surtax, and all other taxes in the State of California.

A part of the principal of the bond being repaid each year gives the investor a definite sum to count on annually, or, principal and interest may be reinvested in bonds without loss of a single day's interest.

The experience of our clients proves that once you become a purchaser of Street Improvement Bonds your investment problem is solved. It will pay you to in-vestigate our present offerings is-sued by the cities of Los Angeles, Burbank, San Bernardino, Redlands and Santa Cruz. Circular and booklet on request

Julian Petroleum Corporation Stockholders

The analysis of the book value of your Preferred stock has progressed to the point where I am justified in advising you that it is SUBSTANTIALLY IN EXCESS OF PAR VALUE OF \$50.00 per share. From these figures, in my judgment, the market value of the Preferred in the present movement, will soon reach a new high level ranging from \$45.00 to \$50.00 per share as against the market price of \$23.50 as of Saturday.

The present earnings of the Company, plus the drilling program fast maturing, would indicate the Common should participate in the dividends before the end of the present year; just how soon I am not yet in position to advise you.

A tabulation of the amount of Common stock to which you will be entitled covering - the accumulated dividends will be published in the next issue of the "LIGHTNING FLASHES," which will be off the press during the week, and just as soon as it is ready for distribution announcement of it will be made in these columns.

FOR THE CONVENIENCE OF THOSE STOCKHOLDERS WHO ARE DESIROUS OF HAVING THEIR STREET CERTIFICATES TRANSFERRED TO THEIR OWN NAMES, AND WHO ARE DESIR-OUS OF HAVING THIS OFFICE PLACE THEIR ORDERS FOR AD-DITIONAL PURCHASES OF JULIAN SECURITIES ON THE LOS AN-GELES STOCK EXCHANGE, OUR OFFICES WILL BE OPEN ALL DAY MONDAY.

YOURS RESPECTFULLY,

S. C. LEWIS

PATRIOTIC HALL

County's Memorial Building Officially Opened

Veterans of Many Wars at Stirring Exercises

Pictures of Two Officers On Committee Unveiled

While crowds jammed the inside and hundreds of others, unable to gain admittance, congregated about the entrances. Patriotic Hall, Los Angeles county's new ten-story \$1,000,000 Weter-ans' memorial building at 1816 South Figueroa atreet, was dedicated yesterday afternoon.

Veterans of many wars, repre centatives of fifty-nine patriotic organizations, joined in the demonstration that was a feature of the exercises, Grizzled old soldiers who participated in the Indian wars, alightly younger members of the Grand Army of the Regubble, Spanish War veterams and young herces of the World War mingled in the crowd that filled to overflowing the large auditorium of the building.

The meeting was called to constitute the constitute of the constitut sentatives of fifty-nine patriotic

the building.

The meeting was called to order by Chief Deputy District Attorney Fitts, chairman of the war veterans' building committee, who, co-operating with the County Board of Supervisors, was instrumental in obtaining the building, declared to be the largest of its kind in America, for Los Angeles, ATDIENCE. AUDIENCE SINGS "AMERICA"

AUDIENCE SINGS "AMERICA"
Rev. Henry H. Wood. department chapiain of the G.A.R., pronounced the invocation, and then the audience, led by Mrs. Robert Wankowski, sang "America."

An impressive moment came with the unveiling of pictures of the late Col. W. S. Daubenspeck and the late Gol. W. S. Daubenspeck and the late Gen. C. E. Adams, whe were members of the veterans' building committee when it was organized three years ago, but who died before they saw the fruition of their dreams. A speech that Col. Daubenspeck, who died but a short time ago, had prepared to deliver at the idedication exercises, was read by Mrs. Ella French, and it revealed the deep sense of patriotism that motivated the author.

The veterans' committee.

Supervisors Give Great Memorial to War Heroes

The exercises ended with a bendiction by Rev. Gerdon Palmaner, County Supervisors Mulhaney, Sheehan and Melms. It was upon the loss Angeles Post of the American Legion.

The new building is a Class A reinforced steel structure of Floration type of architecture destination to the Pacific Coast. If it wins in this contest it will receive a supplemental \$150.

The winning slogan will receive Sheehan and Melms. It was upon Separtor Mehigan's resolution that the committee was commissioned to make such a study and report to the 1927 session of the Legislature.

En route, the party stopped at St. Louis, Kansas City and Denver, St. Louis, Kansas City and Denver.

NEVER was there a guess contest like the one going on. The fate of nations may de-

pend upon it. The guessers are the naval experts, who are building new ships of war that must be unconquer-able; yet come within the 10,-000-ton limit imposed by the disarmament treaties—the Washington Treaty.

TOUGH PROBLEM

against a tough problem. In 'one way or another, they have to anticipate what the next

war will be like. And it is a fact that nobody ditions. Every war takes the experts by surprise. None more so than the World War.

For forty years, military ex-perts prepared for a war of rap-id movements and maneuvers; then found themselves in ditches that nobody could get out of.

Taken by surprise, the army self to the conditions as they have developed; but a warship is built to stay.

YOU CAN BAVE HIM

Y "Big Hutch" has not lived in vain—even though a New York court has turned him loose. Although he will not be on the roll call at San Quentin, his case has at least called attention to the system by which we hog-tie our courts; and leave the administration of justice and the punishment of criminals to a

bunch of politicians.

Now that New York has gathered "Big Hutch" to its bosom, I hope New York will enjoy looking out for him. In any case, it will be a long time before he ventures to tread the soil of California again.

ONE HAT-TWO YEARS

O The next time the illustri-ous German, Dr. Hjalmar Schacht, wants something to ex-pound about, I'll wager it will

not be women's hats.

He brought down an avalanche
of indignant femininity upon his
head by the diabolical suggestion that a woman should buy a hat not oftener than once in

two years.
Oh Doctor! Doctor!

For my part, I wouldn't want to live in a world where the flappers had to make one guess about a hat; and make that guess

be it better . . . Do you honestly feel that I would look

CAMPAIGN FOR SILENCE AFOOT

All Local Stations May Follow KHJ

Keen Interest Displayed in DX During Tests

Chicago Won Bitter Fight for Quiet Night

BY PAUL SHEEDY KHJ today again observes regular weekly slient period as its courtesy to the thousands of radio enthusiasts who greatly desire at least one opportunity every week of logging distant broadcast stations and from the terend of sections and from the trend of sections and from the sections and from the sections and from the sections and from the superheterodyne class sincerely desired at least one night to hear distant points, to keep the air around Los Angeles free from the blanked of waves erannating from the big stations here.

This morning at 10:30, Uncle John and a large group of the children's hours for waves erannating from the big stations here.

The recent tests made during the annual International Eadio Week, when authorities showed conclusively that more sets were in operation during the designanted hours of silence than at any similar period during the year.

Chicage has finally, so patrons think, closed this problem, with all broadcasters in that metrodynamic and the second states and bitter, even medical waves and bitter, e regular weekly silent period as its courtesy to the thousands of radio

of the city were finally forced to join in the movement.

Radioland last night from the tewer studio of KHJ had two feature concerts, both of excellent merit. At \$\frac{1}{2}\text{ colock}\$, Harold Roberts and his Golden State Bandrecognised as the leading organization of its kind in this section, came on the air with a specially selected program through the courtesy of the Metor Car Dealing of the annual Automobile Washington hall park at Washington and Hill streets, where four of Roberts's ensembles are playing daily. With the band on this breadcast, was the widely known Orpheus Four male guartet, the vectang singers known to thousands of listeners for their frequent air concerts and appearances in public.

From 9 until 10 o'clock a patrictio program was given in honor of Washington's Birthday, featuring the air debut of two talented vocalists, Mrs. Monterey Stewart, mez-zo-soprano, and Mae Mershon McLaughlin, contraito. These two singers gave groups of delightful solos, being warmly praised for their initial performance over KHJ. With them on the program was the California Military Quartet, with a number of martial airs, accompanied with drums and fifes. Little Marjoris Genevieve Lowe, 6-year-old reader, also appeared with several recitations.

The Sunday afternoon Masonic Service program from 4 until 5 o'clock, program from 4 until 5 o'clock, program from 4 until 6 o'clock, progr

was held up by a beggar, and two oil-station attendants were robbed in a series of bandit forays late Saturday night and early Sunday morning, according to reports to police yesterday.

Mrs. Dolly Kuchsin and her grown daughter were asleep in a bedroom of their home at 2025 East Fourth street when a burglar entered. Mrs. Kuchain awoke to find the intruder grasping her by the throat. As his grip tightened she lost consciousness. The burglar took 346 from the ice box.

R. O. Wilson, 1022 West Avenue 27, was enjoying a night view of the city from Lookout Point in Elysian Fark when an armed man threatened to push him over the ciliff if he did not give up his money. Wilson surrendered 375. Upon returning from the theater, W. T. Scandiyn, 2657 Palm Grove avenue, was held up by two men armed with revolvers. They bound and gagged him, and departed with 3106 in cash and a 3106 diamond ring.

J. L. Salee, 1412 Santee street, was stopped at Fourteenth and Santee streets by a man who asked for a dime. The mendicant produced a revolver and Sales parted with \$28.

The "coat-pocket bandit," whe does not show a revolver but the Charles Band. Staniev Anderson.

duced a revolver and Sales parted with \$28.

The "coat-pocket bandit," who does not show a revolver but keeps his hand in his overcoat pocket as if he has one, is credited with holding up A. Hill, Union off station attendant at \$250 and Monica Boulevard, and J. He Southern California Hotel R. Van Veerssen, Siell oil station attendant at 451 Santa Monica Boulevard, and J. He Southern California Hotel Men's Association, the Greeters and the Far Western Travelers' Association. Interment will be in Forest Lawn Cemetery, Glendale.

One o'Clock Bullock's Broadway-Hill Saturdays Bullock's and-Seventh

Tuesday---New Rosemary Dressess---\$59.50!

Collegienne Dresses in Afternoon and Evening Types---Tuesday, \$35

Taffeta—one of the smartest fabrics of spring, shown in the crisp little dress on the left-with the wide "gipsy" girdle-a Collegienne dress for street or afternoon.

Printed Chiffon—in the striking, modernistic prints that are so much the vogue. This dress also has the favored "gipsy" girdle (sketched in the center). Decidedly an informal afternoon type.

Floating Chiffon-in the soft, luscious pastel tints-again featuring the ubiquitous gipsy girdle. (At the right.)

These are just three of the lovely silk dresses for high school and college girls that have recently arrived at Bullock's Collegienne Shops. Others show the smartness of smocking, the effectiveness of unusual tucking and plaiting, the newer variations of the period frock. Crepes de Chine, flowered taffetas, satins. For Tuesday, \$35.00. New Ribbon Novelties---Flowers, 50c

Specially purchased to make Monday and Tuesday eventful days in Bullock's ribbon section. Ribbon novelties of diverse types comprising gar-ters, powder whacks, lingerie sets, powder puffs with trays and fascinating flowers for decoration. Beautifully made, available in a fascinating array of colorings. Very attractively priced, 50c each.

These Sparklet Syphon Bottles, \$6.50

Such refreshing drinks may be easily prepared by using the Sparklet. These bottles for making carbonated water are imported. They are pressure tested. Pictured in sketch above. Bottles priced attractively, \$6.50 — bulbs for making carbonated water, \$1.50 a dozen.

heroic, solitary figure of Washington grows in stature and acquires a new luster. He was not only a man of the eighteenth cenwas not only a man of the eighteenth cen-tury, but of the centuries that have fol-lowed. His footprints were not planted in the sand where wind and wave could quick-by eliminate them, but in enduring rock. Monuments of granite and marble rise in different parts of the earth to commemorate the passing of one whom some people called great. These will pass; but the monument erected to comp haracter and vision of Washington is a living, pulsating creation that covers nearly half a continent; it is the republic known as the United States of America.

Great was the brain which conceived that ideal; and great were the character, courage and ability of the man who laid the foundations of this citadel of human

During his lifetime Washington acquired in the world outside only a doubtful eminence. Not even the friends of the colonies beyond the seas believed that the young republic born in the midst of a wilderness could live. It was regarded as an experiment that would be discarded as imexperiment that would be discarded as impractical as soon as the colonies became anything really worth while. But Washington had faith in the institutions he helped to establish; and that faith was shared by his countrymen.

As one reads now the contemporary his-

tory of the last quarter of the eighteenth century one is filled with amazement that any people should be daring enough to try the republican experiment. The form of government was ancient. At one time it had flourished; but neither republic nor democracy had survived. Yet Washington risked his own future and the future of the colonies he had helped to liberate on this experiment. He did not trust himself alone, but he trusted his people.

There is no parallel in history for his

two great renunciations. When a crown was within his grasp he cast it aside; not like a Caesar to accept it later, but with definite renunciation. Later, when he had served two terms as President, he voluntarily stepped saide and went into retirement. He was filled with no talse pride. He did not imagine that he MERE BAGATELLE

THE FIRST GREAT

ANALYTICAL OBSERVATION BY DR. E. F. MORGENSTRAND

George Washington's disposition. It was ould dare to criticise or analyze such a possessed such great qualities that, even graffine qualities would have discarded them. the great George Washington I found the a

A proud, independent spirit, understanding what justice is. His NEW TYPE soul always dictated him. His with himself an influence which was genial. Before he spoke a

with himself an influence which was genial. Before he spoke a word most of them felt his presence and the genial influence of his magnetism. He understood people without introduction.

His letters show bravery, magnanimity and gentlepeas. His great exclusive features were positive, dignified, aggressive and show great determination (worked like a cogwheel.) They show farreaching, logical ideas and marvelous memory.

Washington always allowed himself, in "actu-primo" (to talk logic,) The speculate, cloister, pedant in his solitary cell forms systems of thinking that should be as they are. His decisiveness was equal in war, politics, manners and character; pedant to instruct himself in the art of war. His great individuality and only Washington's character would avoid closet politics, it was the deepest motive in his greatest actions.

This hero, statesman, soldier never thought about himself nor about satisfying his own ambitions, but always tried to manifest the deepest motive in his greatest actions.

This hero, statesman, soldier never thought about himself nor about satisfying his own ambitions, but always tried to manifest the deepest motive in his greatest actions.

This hero, statesman, soldier never thought about himself nor about satisfying his own ambitions, but always tried to manifest the deepest motive in his greatest actions.

This hero, statesman, soldier never thought about himself nor about satisfying his own ambitions, but always tried to manifest the deepest motive in his greatest actions.

His serious reflection always gave him courage in a good cause. He thought of things of considering the provide children was and deeds, and it is to his just and brave stand against filegal demands that Americans ove their present liberties.

His serious reflection always gave him courage in a good cause. He thought of things of considering the provide children was and the great independent of the quiet and the great independent of the quiet and the great independent of the quiet and the great independent o

Washington had great vision. In his address to the American people on September 17, 1795, he said that he knew there would be devastators and destroyers in Europe: "A free people ought to be constantly awake, since history and experience prove that foreign influence is one of the most baneful fose of republican government. The great rule of conduct for us had great vision. In his address to the American people of the great rule of conduct for us had great vision. In his address to the American people of the great rule of conduct for us had great vision. In his address to the American people of the great rule of conduct for us had great vision. In his address to the American people of the development of the great rule of conduct for us had great vision. political connection as possib So far as we have already form engagements, let them be tulfill with perfect good faith. Here us stop." Is it not wonderful th

ordinary vicissitudes of her politics or the ordinary combinations and collisions of her friendships or enmittes!

Washington, the guard of the American nation, asked: "Why forego the advantages of so peculiar a situation? Why quit our own to stand upon foreign ground? Why, by interweaving our destiny with that of any part of Europe, entangle our peace and prosperity in the toils of European ambition, rivalship, interest, humor or caprice?"

Purity, righteousness and moral

Purity, righteousness and moral stability are recorded in his char-acter. He said, "Religion and morality enjoin this conduct." Fur-ther, he goes on: "Can it be that get mad if you won't stand and listen.

Those carpet beetles should have ment, at least, is recommended by

fearing man?

How great his humanity, love of mankind and righteousness sounded: "The duty of holding a full filter conduct may be inferred. without anything more, from the obligation which justice and humanity impose on every nation, in cases in which it is free to act, to maintain, inviolate, the relations of peace and amity toward other nations." WHAT STUDENTS READ

PLAYDOM GRAUMAN'S EGYPTIAN JOANNA' LIGHTWEIGHT FLAMING YOUTH OFFSPRING; CELEBRATE

HELEN AND WARREN GOOD Washington's Birthday By Edwin Schallert

Well, what's a million dollars
anyway! It may seen like a lot
of money to you now, but after
you look at the picture "Joanna"

If you do then even a whole
stack of \$20 gold pieces will appear just like something that you
have to gaze at through a microscope.

"Joanna" is the headline attfaction this week at the Criterion
Theater, but as far as I am concerned I warren" comedy.

If this two reel series as a whole
is anything like the one now showling, which carries the title "His
Own Lawyer," then the picturegoing world is due for a lot of extra added enjoyment. I haven't
seen any others of the "Helen and
Warren" series as yet, but this
short reeler is excellent fun. The
picture features Katherine Perry
and Hallam Cooley. Dave Butler,
Grace Darmond and others are in
the support. The judge played by
Charles Sellon is particularly a
scream, while there is nothing
lacking of good gags to make the
film mirthful throughout.

As for "Joanna," it may best be
described as one of the hybrid offspring of "Flaming Youth," It is
about a little modiste's helper who
was given a million dollars to
spend, and how she spent it. From
the time she starts until she finishes, there is nothing but one
slily round of faxt parties. The
culmination is a scene where
Joanna raps one of her admirers
on the temple with the heel of her
slipper and thinks she has killed
him.

The idea of spending a million
dollars is an old one, but it might By Edwin Schallert

PHOTOPLAY SHOWINGS

UNIVERSAL HEAD UNDER-By Grace Kingsley Carl Lasmmle, president of Uniseling extremely well and is all

working night and day on the production

Los Angeles Daily Times.

Appears in Congenial Role

ANORE In the first place, of course, Mr. Laemmle is Jubliant over this recent at filiation with a recent at filiation with usince he can now show in Germany all the Universal pictures he likes, as against the former small percentage of American-made pictures, including Universal's, which could be exhibited there, due to the policy so of the German producers and the government, which were fostering the German made pictures. Andre Mattoni, German Valentino, who has been signed with Universal, is visiting the studio these days. He is delighted with everything American, and when somebody asked him, on his arrival, why he had never married, if the course of the course of

assigned his first Universal pictures assigned his first Universal pictures. Mr. Laemmile stated, regarding the question as to whether he would send some of his American players to Berlin to make pictures, that he did not believe he would. However, it is possible, he said, that he may bring other German players to America.

An announcement of great interests to the effect that a film version of 'Romeo and Juliet' is to be made by Universal. Mary Philibin, it is to be the star as Juliet. It is quite possible that Andre Mattoni may play Romeo, and be constarted with Miss Philibin.

However, the latter matter is not yet decided upon. Raymond Keane, wan made a terrific hit in a recent Universal picture, also is being considered.

"Romeo and Juliet" is to be made as Universal's next superly leading the state of the last decided within the next two months. It is possible that Dupont may be chosen. An nouncement of the director will be made within the next two months. The production, according to Mr. The Copperhead" is to be greatened by Macilcon for the role of the commenced within the next two months. The production has been any be studying the picture will be given its opening that the may be studying the picture will be made within the next two months. The production is to be a lay incomment of the director will be made within the next two months. The production is to be a lay incomment of the director will be made within the next two months. The production is to be a lay incomment of the director will be made within the next two months. The production is to be a lay incomment of the director will be made within the next two months. The production is to be a lay used to the production will be given its opening of the work, which might aim of the work, which

been engaged for the weber picture.

It is reported that "Uncle Tom's
Cabin" has already been commenced with George Siegman as
Simon Legree and Barbara Kent
as Little Eva, while Margarita
Fisher is elected to play Eliza.
The company is to journey to the
Northeast, possibly to Minnesota,
to get the ice scenes.

"Uncle Tom's Cabin" is to be one
of the greatest pictures from every standpoint that Universal has
ever produced.

MEDERAL DIVORCE LAW AS GUARD TO HOME URGED

Dr. Palmer Says Nation Cannot be Saved When Family Buffet is Used as Bar

Declaring that the divorce record of the United States oves the need for uniform national marriage and divorce laws for the protection of the American home, Dr. Gordon Palmer, pastor of the South Park Baptist Church, in a sermon from The Times broadcasting station yesterday, struck boldly at many existing evils and voiced his conviction that "the nation cannot be saved to law and order while parents make a public house of the dining-room or a bar of the sideboard." Preaching on "The Soul of the Nation," Dr. Palmer said in part as "What shall it profit a nation if traditions possible of realization.

duests for the resignations of the cale may come temorrow as a result of the suicide last week of a department officer, it was learned tonight.

Fire Chief G. Clarence Craw and Second Assistant Chief James Headley are said to be alated for replacement with First Assistant Chief William Minter as the probable new chief.

The report followed a visit tonight by City Manager Windham and Minter to each of the nine fire stations, where Windham talked with the station men.

Both Craw and Headley have been absent from their posts since last Friday, when Taylor's body was found, according to Long Beach police. At that time, the widowed Mrs. Taylor sent a message to her dead husband's fellows counseling them to keep their heads and not do anything rash. Detective Sergeant, Alyea said he advised Craw to leave town for a time.

Craw recently promoted Headley

advised Craw to leave town for a time.

Craw recently promoted Headley and petitions for Headley's reduction followed. Both men and officers of the department were considerably agitated over the situation and the climax came in Taylor's slashing himself to death with a razor. He left a note disclosing mental anguish over the situation.

Veteran Police Inspector Ill From Exposure

man, one of the oldest men in the of ill detective bureau in service, is se-riously ill at his home, 152 South riously ill at his home, 152 south Wilton Place, it was learned last confi-

Wilton Place, it was learned last night.

He became ill from exposure during the recent rainy spell, it was said, and developed an abscess in his ear, which necessitated an operation. This operation was performed Saturday, and the inspector did not raily for it as well as had been hoped, it was said. Inspector Chapman became a policeman in 1900 and served as secretary to chiefs of police until 1905, when he was made a detective. He has continued in that service since, and now is senior inspector.
